À BIENTÔT, **CLASS OF '23!**

Yanaj “Putter” Budhijalananda, Thailand 17MBBS

Graduation is the end of one chapter of our lives, but it is also the beginning of a new one. Of course, there exists a bittersweetness — I felt sad to depart from my friends. We filled Fudan with endless stories and memories.

As 6 years of university comes to an end, we embark on our individual paths to pursue our dreams and passions. I hope we all gather the courage to live the life we imagined, that all of us will have even greater accomplishments in the future.

To all who graduated — congratulations. And to the current MBBS students - 加油! Enjoy the student life, trust me.

WELCOME to FUDAN, CLASS OF '29!

SILL FEELING THE ADRENALINE post-registration in the morning, the freshmen class of 2029 gathered at Teaching Building 6 of Fudan University's Handan Campus. They were eagerly looking forward to attend FIMSO's orientation as official students.

This particular orientation was a special one - the first offline orientation in over 2.5 years. It was one of the many indicators that the university was officially back to its normal functions post-COVID.

At the event, students learned everything from which apps were useful for take out to where to get the best karaoke singing experience.

Yvonne Hao, USA of the 五年临床医学 program shared, "FIMSO provided me a safe and welcoming community full of encouraging and sweet classmates. I can't wait to see what more fun events and experiences the future holds. I'll be forever thankful to FIMSO for being my home away from home."
